

Villa in Wilanów

Location : Warsaw, Poland
Program : Single Family House
Area : 650.0 m²
Year : 2012
Client : Private

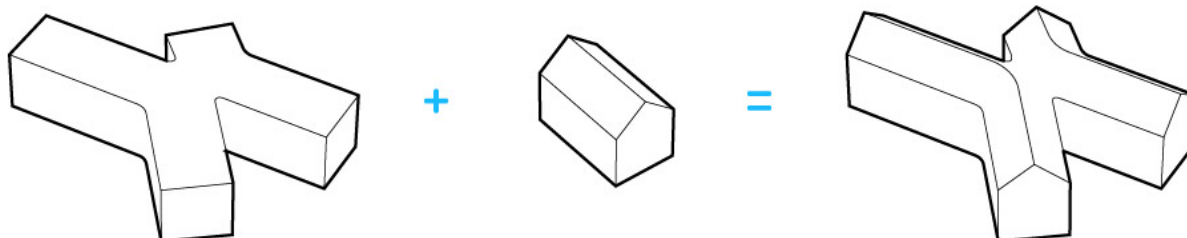

The residence in one of Warsaw's Villa districts was conceived out of clients' pursuit of unity with nature. It was supposed to become an urban refuge for the clients as well as a gathering place for their closest family. The clients – Mariola and Tomasz – are active, career-oriented businessmen. They needed an asylum for themselves, their twelve-year-old daughter and their two adult sons with their families, who would be frequent visitors of the residence.
